Learning with Faith and Vision

An education based on gospel values

CATHOLIC SCHOOLS seek to live Gospel values and empower students with a code of behaviour based on Catholic moral principles and the teachings of the Gospels. It is with optimism and a deep sense of privilege and purpose that we prepare our students to engage with and make an authentic contribution to wider society.

These core beliefs and values are reflected in Catholic schools' pastoral care practices, their commitment to peace, social justice and service, and to the development of each student's self-confidence, resilience and character.

Safe and secure

Our schools strive to provide an environment where students feel safe, secure and comfortable. Our schools and their leadership seek to ensure best practice in providing a safe and positive school environment where healthy relationships can flourish. Bullying, harassment and discrimination are not acceptable and all schools have established practices for managing unacceptable behaviour. An emphasis on respect for self and others results in the disciplined and favourable learning and teaching environments for which our schools are renowned, and where students feel safe and welcome, and can achieve to the best of their potential.

Communities of care

Catholic education occurs in welcoming, inclusive, and connected communities. Our schools seek to provide a genuine, safe and caring experience of community, to encourage students to appreciate the intrinsic worth of who they are, to value diversity and treat each other with dignity, enabling them in turn to promote and respect the dignity of all.

An educational partnership

A Catholic education is seen as a partnership between students, parents, school and parish where parents and families are welcomed as members of the school community. Catholic schools encourage parents to be involved in all facets of school life and to actively support students in the full range of educational activities.

Many opportunities exist for parents to form life-long friendships and contribute to the life and development of their children's schools through involvement with School Boards, Parents and Friends Associations and voluntary activities in school communities.

Social and emotional wellbeing

Students in Catholic schools are often described as "happy". Our schools place great focus on the social and emotional wellbeing of all in their school communities. We recognise that success of any kind – learning or in life – is founded on the wellbeing of individuals, personally and in relationship with others.

A life to the full

Catholic schools emphasise personal and social development as fundamental enduring values and requirements in an ever-changing world. This holistic care of students educates the whole child and provides an educational foundation for life to the full - addressing spiritual, intellectual, social, emotional, physical and cultural development.

Catholic education strives to make a difference in the lives of individuals and in the wider community by challenging our students to find meaning and value in their lives, and develop communal obligations and aspirations.

Quality teaching and learning

Catholic schools have long been known for their high standards. They strive for excellence in all that they do, encouraging students to use their God-given talents to reach their full potential.

Our qualified, caring and dedicated teachers are one of the great strengths of our Catholic school communities.

Catholic schools seek to provide a high-quality academic and vocational education for all their students, giving due emphasis to the fundamental literacy and numeracy skills required for both learning and life. They deliver the Australian Curriculum and offer broad curriculum and co-curricular options in well-resourced and equipped classrooms, with full ICT integration and all the requirements for contemporary learning in the 21st century.

Welcoming to all

Our Catholic school communities are inclusive places of learning, open to families and students from all walks of life and faith traditions who are committed to, and supportive of, the ethos of Catholic Education and seek to embrace all that it offers.

While enrolment preference is given to those of the Catholic faith, our schools also embrace those of other faith backgrounds as a wonderful opportunity to promote understanding and introduce all to the person and message of Jesus Christ, wherever they may be in their faith journey.

Our schools are committed to fostering cultures of inclusion that respond to the educational needs of students regardless of their abilities, backgrounds and aspirations. Our school communities are places where the uniqueness and individuality of students and families is recognised and welcomed and the human dignity of each student is promoted.

Fees and affordability

Catholic schools are partly government funded, however reasonable parent contributions are essential to make up for the shortfall in government funding in comparison to state schools. However, based on gospel values and Church mission to care for the poor and marginalised, no child is denied a Catholic education based on the genuine inability of parents to pay school fees, in whole or part. Substantial fee discounts and exemptions are available in circumstances of genuine financial hardship.

Expect more

If you want more from your child's education, consider a Catholic school for your child. Contact the Catholic school of your choice for further information and an enrolment application.

Is a Catholic school right for your child and your family?

- Faith and values based learning environment

- Strong links with parents and community
- Commitment to social justice
- Preparation for a life of worth, not merely a life of work

WELCOME

Waibeni (Thursday Island) &
Kiriri (Hammond Island)

Weipa

From the humble beginnings of Catholic Education in the Cairns Diocese over 110 years ago when Catholic schools were established and staffed by religious orders, Catholic schools have since evolved into the modern, vibrant and well-resourced learning communities we see today.

With around 11,000 students in our 30 schools and colleges, Cairns Catholic Education serves communities from Tully

in the south, to Weipa and Thursday Island in the north, and west to Dimbulah on the Atherton Tablelands.

While each of these schools and colleges has its own character, identity and proud traditions, there are a number of defining features that characterise our Catholic schools and make Catholic Education 'something special' and highly sought after by parents.
